Subject: Microsoft Settlement

Dear USDOJ:

I do not support the proposed final judgment. Microsoft has been ruled a monopoly, and significantly more must be done to end the illegal monopoly than what the DOJ currently proposes. There are many highly qualified experts in the legal and technology professions who have strongly criticized specific proposals in the DOJ's settlement. I believe that these expert's opinions have not been included, and they deserve greater representation.

Thank you for your time.

Sincerely,
Rodney Koch
